Sushant Kokate

9763280178 | **kokatesushantsk@gmail.com** | Pune, Maharashtra

Professional Summary

Python Web Developer experienced in building web applications and REST APIs using **Python**, **Django**, and **FastAPI**. Skilled in **MySQL**, **SQLite**, and tools like **Git** and **Docker**. Developed real-world projects including a **Medicine Donation System**, **Automation Chatbot**, and **HabitCoach**. Strong leadership experience guiding 15+ students in technical events, workshops, and project development.

Technical Skills

- **Languages:** Python, SQL, Bash
- **Frameworks:** Django, FastAPI, Django rest framework
- **Web:** REST APIs, HTML, CSS, JavaScript
- **Databases:** MySQL, SQLite
- **Tools: Git**, Docker, Postman, VS Code, JIRA
- **Libraries:** Pandas, NumPy, Celery, Selenium

Positions of Responsibility

Infosit Club — CEO (2021–2022), Director (2022–2023)

- Led **15+ students** in technical events, workshops, and project development.
- Organized and executed **department-level events** and training sessions.
- Mentored juniors and improved participation through **new activity formats**.
- Ensured **smooth team communication** and collaboration across events.

Projects

Unused Medicine Donation System (Django, SQLite)

- Developed a **full-stack web platform** to collect and redistribute unused medicines.
- Implemented **secure authentication**, donation workflows, and CRUD features using **Django ORM**.
- Built a **responsive UI** and optimized forms to improve user experience.
